## PORSCHE ART

How much? £700

Where from? [stefanoartigiacomo.it](http://stefanoartigiacomo.it)  
Stefano Notargiacomo is an Italian artist who reinvents parts of classic cars and motorcycles, turning them into unique statement pieces for high end home interiors. These pieces can take the form of all kinds of things, from coffee tables to a desk glove box, however lamps are a mainstay of Notargiacomo's work. Recent creations have seen the artist use Porsche parts, originally from both the 356 and 911, to great effect. An elegant desk glove box inspired by 356 was one key work, a lamp made from a 356 drive shaft another. Ultimately anything goes here and each piece is unique and expertly crafted based on customer's requirements.

## SPARK 1:43 996 GT2

How much? £53.95

Where from? [www.racingmodels.com](http://www.racingmodels.com)

The New Hardware Racing / Pan Motorsport 996 GT2 replicated here by Spark in 1:43 scale was raced during the 1996 24-Hours of Le Mans. Driven by Stéphane Ortelli, Andy Piggin and Andrew Pagnall, the real car was driven to 17th place. Add code **GTPOR010** to your shopping cart to receive a 10 percent discount exclusive to *GT Porsche* readers.

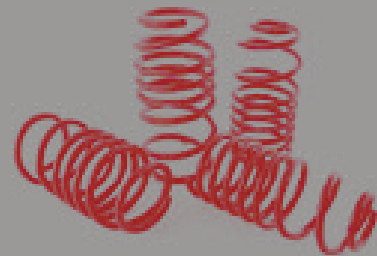

## FK 991 SPRINGS

How much? £75.95

Where from? [www.fast2shop.com](http://www.fast2shop.com)

These FK lowering springs are suitable for the 991 Cabriolet and Convertible (from 2012 on). Lowering the car approximately 30mm (front) and 30mm (rear), the chrome silicon steel springs are excellent value and manufactured under strict guidelines ensuring they provide high-quality protection from corrosion.
